### **TRANSPORTATION AND WAREHOUSE MANAGER**

With 140 successful years in the industry, **KRUG** is well recognized as a leader in the design & manufacture of high quality business and healthcare furniture. Reporting to the Director of Operations, Casegoods and Tables, we are seeking a customer focused driven leader for our Distribution Centre and Warehouse located in Kitchener, Ontario.

This role is responsible for overseeing the logistics of our company's transportation operations which includes managing the receipt, warehousing, transportation and distribution of finished goods and raw materials as well as managing inbound and outbound freight costs/carriers, while supporting on-time delivery.

#### **RESPONSIBILITIES:**

- Provides outstanding service to (a) external customers and (b) internal customers in on-time delivery of product, information and assistance.
- Controls and negotiates rates of common carriers for both national and international shipments. Approval of freight invoices. Researching the most economical shipping methods and securing contracts with transportation providers based on that research.
- Ensures efficient utilization of warehouse space and resources.
- Manages stock control and reconcile with data storage system.
- Manages warehouse(s) and support staff, including safety, productivity, quality, responsiveness and staff satisfaction.
- Ensures all carriers, warehouses and personnel, both inside and outside (i.e. truck drivers) are qualified to minimize damage to product shipped.
- Analyzes freight claims and takes appropriate actions to reduce.
- Responsible for accurate, complete and safe loading of the trailers.
- Manages all inter-plant transportation and ensures on-schedule deliveries.
- Analyzes and recommend changes to inbound freight process and carriers, including overseas containers.
- Develops a team within Distribution to identify cost reduction opportunities within both the physical plant and administrative office – meet regularly – and develop, document, and implement plans for those cost reduction opportunities – track progress.
- Performs all responsibilities/services in accordance with company Quality Assurance procedures.

#### **QUALIFICATIONS:**

- Post-secondary education in Logistics, Supply Chain Management or Business.
- 5 to 10 years of transportation/warehouse management experience.
- Experience with shipment options, legal issues, government regulations, and safety procedures is required, as is knowledge of geography, mathematics and computer applications.
- Expertise in warehouse management procedures and best practices.
- Proven communication and organizational capabilities.
- Proficiency in Microsoft Office.
